

BALLOON-ASSISTED TRACHEOSTOMY PRODUCTS

Arndt Multiport Airway Adapter

Permits simultaneous bronchoscopy and ventilation of the airway.

The Arndt Multiport Adapter and Cook Airway Exchange Catheter can be used during balloon-assisted tracheostomy to provide:

- **Continuous visualization** to facilitate precise placement of the introducer and help prevent posterior tracheal wall damage.
- **Continuous airway access** via the Cook Airway Exchange Catheter, which serves as a guide for reintubation and can deliver oxygen during the procedure if necessary.
