

Ramp up your access capabilities.

Haber RAMP™

CATHETER

Access is vital to the success of multiple-stenting procedures. As the only catheter that allows you to place up to three .035" wire guides simultaneously, the Haber RAMP is an excellent platform for selective cannulation of the intrahepatic ducts. You also have the option to place two wire guides at once and have the freedom to inject through the third lumen.

Haber RAMP™

CATHETER

This device is used for endoscopic cannulation of the ductal system.

This device is supplied sterile and is disposable – intended for single use only.

- Accepts three .035" wire guides, permitting choice of specialty wires for passage of difficult strictures and enabling physicians to place three wires simultaneously
- 8 FR tapered to 6 FR tip enhances smooth ductal access
- Radiopaque tip optimizes fluoroscopic visualization
- Color Connection for instant recognition of compatible wire-guided accessories
