

Giving you strength and flexibility so you can focus on outcomes.

Zilver®

BILIARY SELF-EXPANDING STENT

The excellent flexibility, radial force and durability of the Zilver Biliary Stent combine to deliver patency rates expected of a market leader, according to a recent study that compared the 10 mm Zilver to the 10 mm WallStent.¹ The results are clear: You can trust that when you choose the Zilver Biliary Stent, you're choosing the gold standard for patency.

Zilver®

BILIARY SELF-EXPANDING STENT

Used in palliation of malignant neoplasms in the biliary tree.

Supplied sterile and is disposable – intended for single use only.

Warning: The safety and effectiveness of this device for use in the vascular system have not been established.

- Self-expandable, non-shortening Nitinol stent, provides maximum flexibility without kinking or compressing
- Zilver “Z” configuration applies uniform radial strength evenly to the biliary duct
- Multiple gold markers on each end enhances precise placement
- Preloaded 7.0 Fr Reliant Introducer offers an integrated hub for injection
- Tuohy-Borst adapter facilitates proper deployment
