Maglinte Enteroclysis Catheter Set	44-45

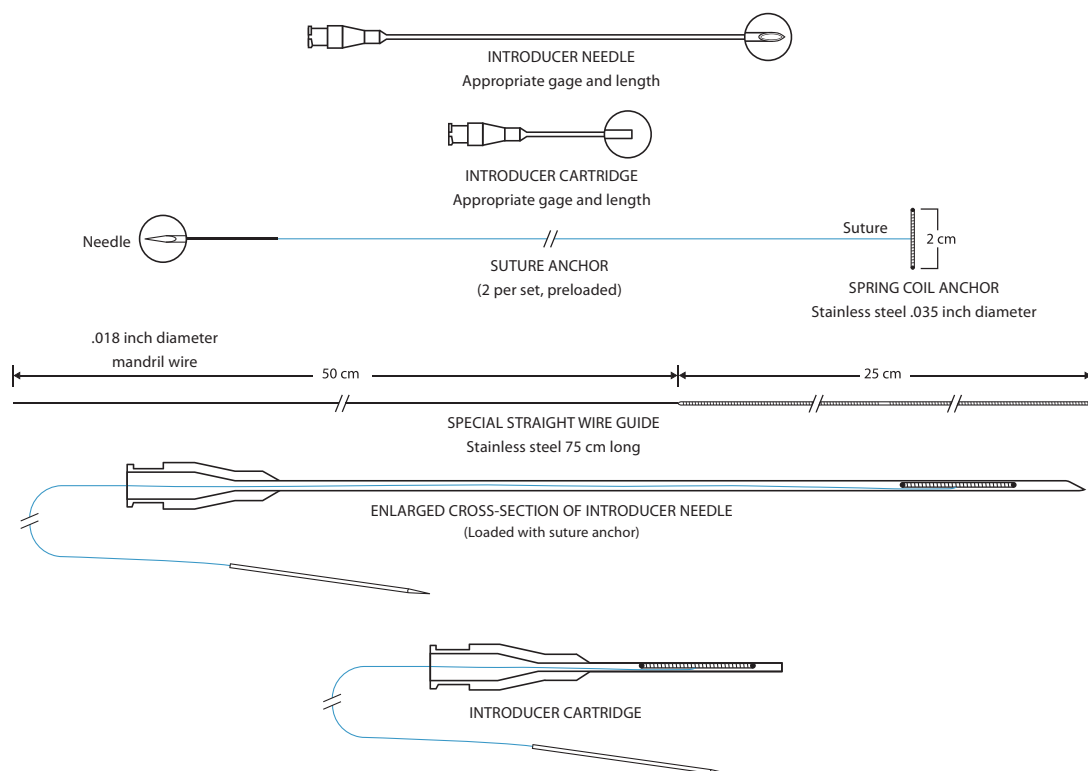

Cope Suture Anchor Set

Used for anchoring the anterior wall of the stomach to the abdominal wall prior to the introduction of interventional catheters.

- Flexible "spring coil" suture anchor enhances patient comfort
- Both the introducer and loader come with one preloaded suture anchor
- Braided material increases suture resilience

Each set includes:

Order Number	Reference Part Number	Introducer Needle gage	Introducer Needle Length cm	Anchors
G04474	GIAS-100	17	12	2

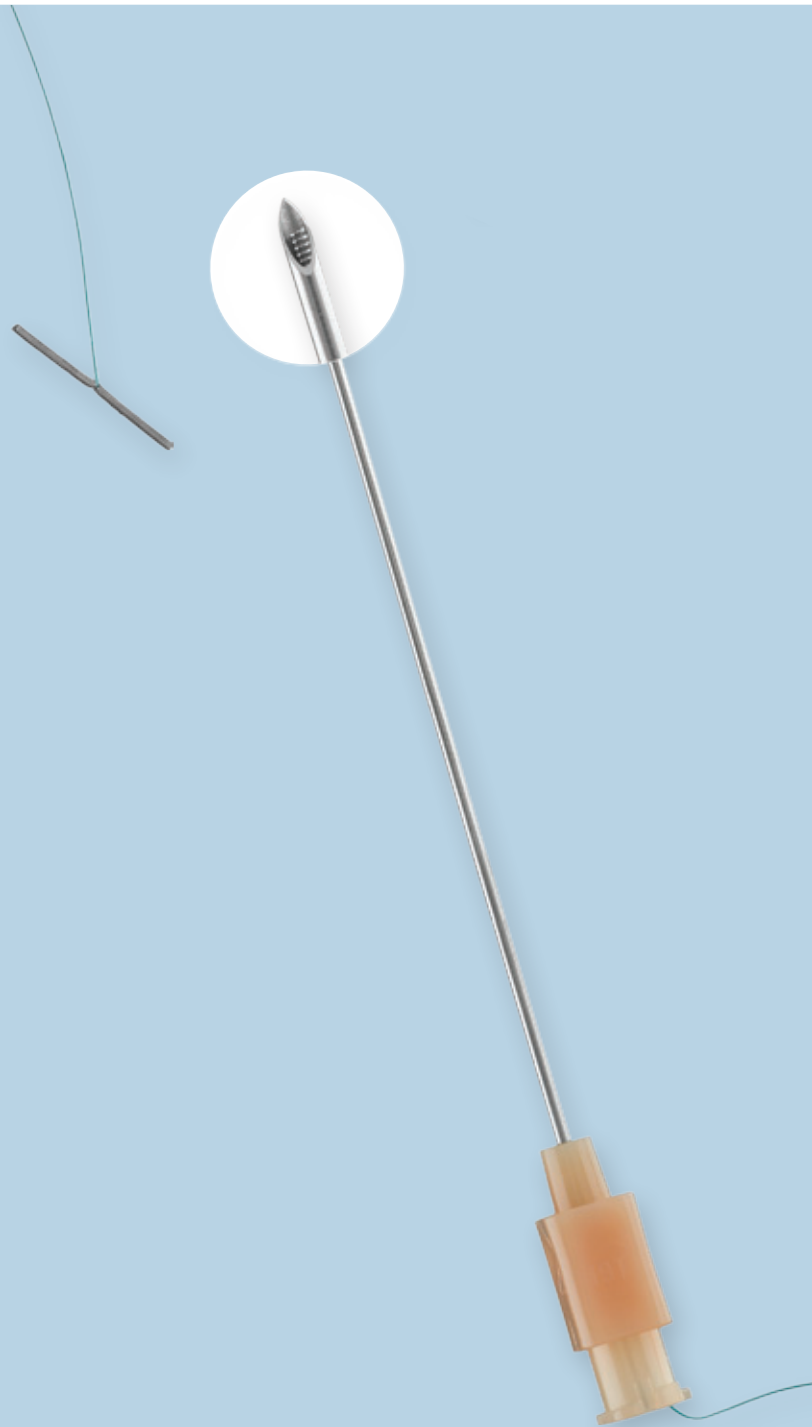

Supplied sterile in peel-open packages. Intended for one-time use.
 Not all part numbers shown on this product information sheet may be approved for sale in all regulatory jurisdictions.
 Consult with your local Cook representative or customer service center for details.

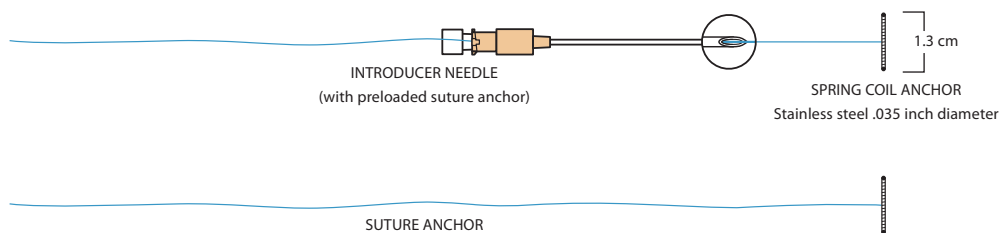

Cope Suture Anchor Set - Pediatric Configuration

Used for anchoring the anterior wall of the stomach to the abdominal wall prior to the introduction of interventional catheters.

- Smaller introducer needle and suture anchor than standard Cope set accommodate smaller anatomy
- Flexible "spring coil" suture anchor enhances patient comfort
- Braided material increases suture resilience

Each set includes:

Order Number	Reference Part Number	Introducer Needle gage	Introducer Needle Length cm	Anchors
G08276	GIAS-100-PED-HSC-A-111293	19	7	2

Supplied sterile in peel-open packages. Intended for one-time use.

Not all part numbers shown on this product information sheet may be approved for sale in all regulatory jurisdictions.

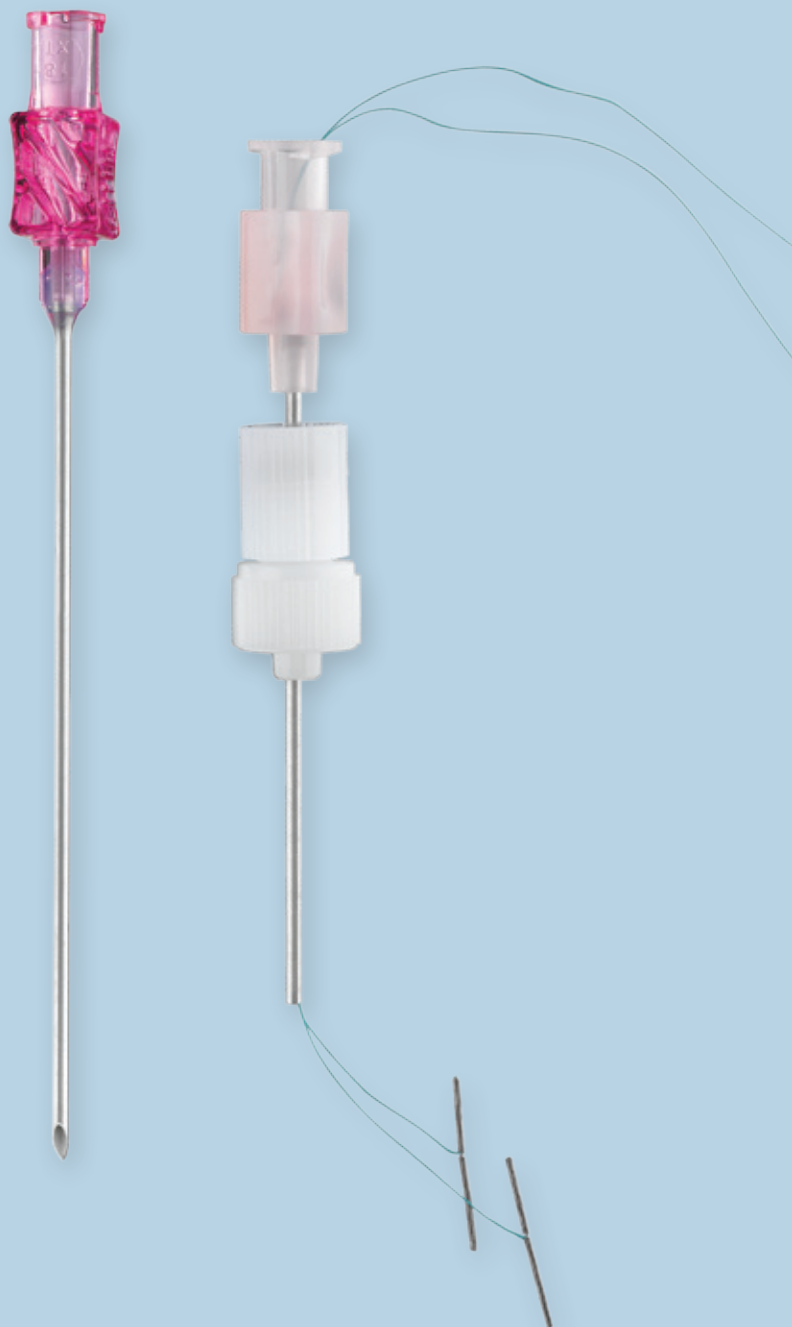

Consult with your local Cook representative or customer service center for details.

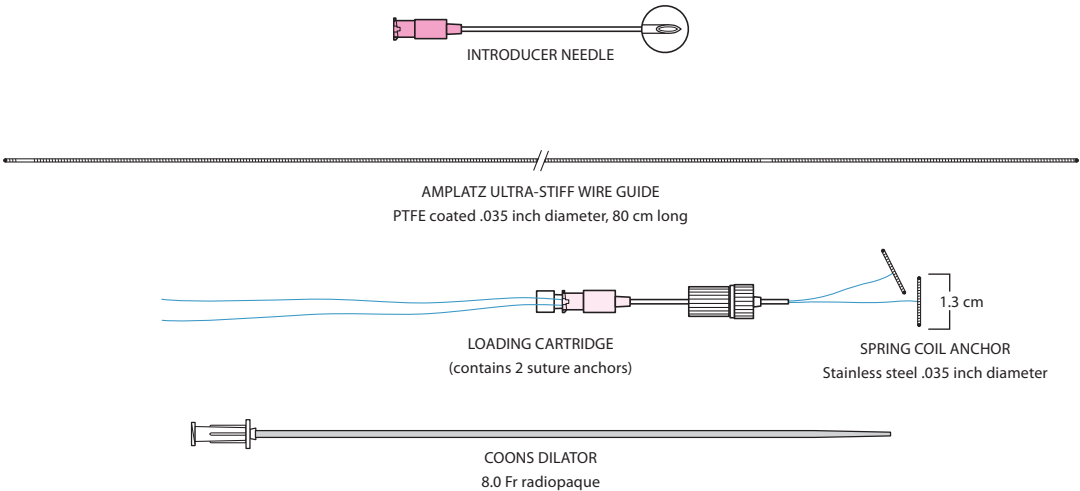

Chait Suture Anchor Set - Enterostomy Configuration

Used for anchoring the anterior wall of the hollow viscus to the abdominal wall prior to the introduction of an interventional catheter.

- Flexible "spring coil" suture anchor enhances patient comfort
- Braided material increases suture resilience

Each set includes:

Order Number	Reference Part Number	Introducer Needle gage	Introducer Needle Length cm	Anchors
G12230	GIAS-100-CHAIT	18	7	2

Supplied sterile in peel-open packages. Intended for one-time use.
 Not all part numbers shown on this product information sheet may be approved for sale in all regulatory jurisdictions.
 Consult with your local Cook representative or customer service center for details.

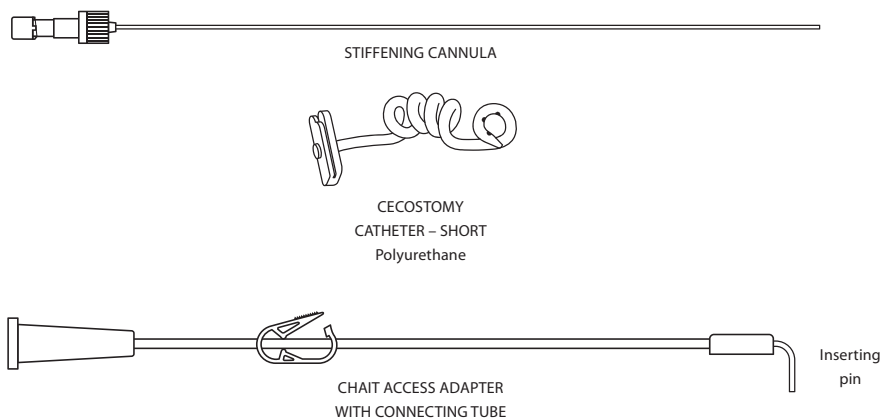

Chait Percutaneous Cecostomy Catheter

Used to facilitate antegrade colonic cleansing for patients with fecal incontinence.

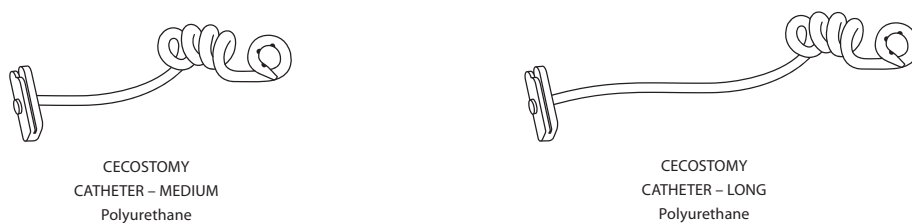

- Ability to effectively manage fecal incontinence gives patients greater independence and quality of life
- Low-profile "trapdoor" fitting is designed to lie flat against the skin for enhanced patient comfort
- Multi-curl tip configuration provides secure, atraumatic retention within the cecum
- Available in three sizes (short, medium, long) to fit a wide range of patients

Each set includes:

Sets also available with:

Order Number	Reference Part Number	Catheter Fr	Catheter Sideports	Tract Length cm
G11632	TDCS-100	10.2	3	0-6
G36392	TDCS-100-M	10.2	3	3-9
G12685	TDCS-100-L	10.2	3	6-14

Supplied sterile in peel-open packages. Intended for one-time use.
Not all part numbers shown on this product information sheet may be approved for sale in all regulatory jurisdictions.
Consult with your local Cook representative or customer service center for details.

Chait

PERCUTANEOUS CECOSTOMY CATHETER SET

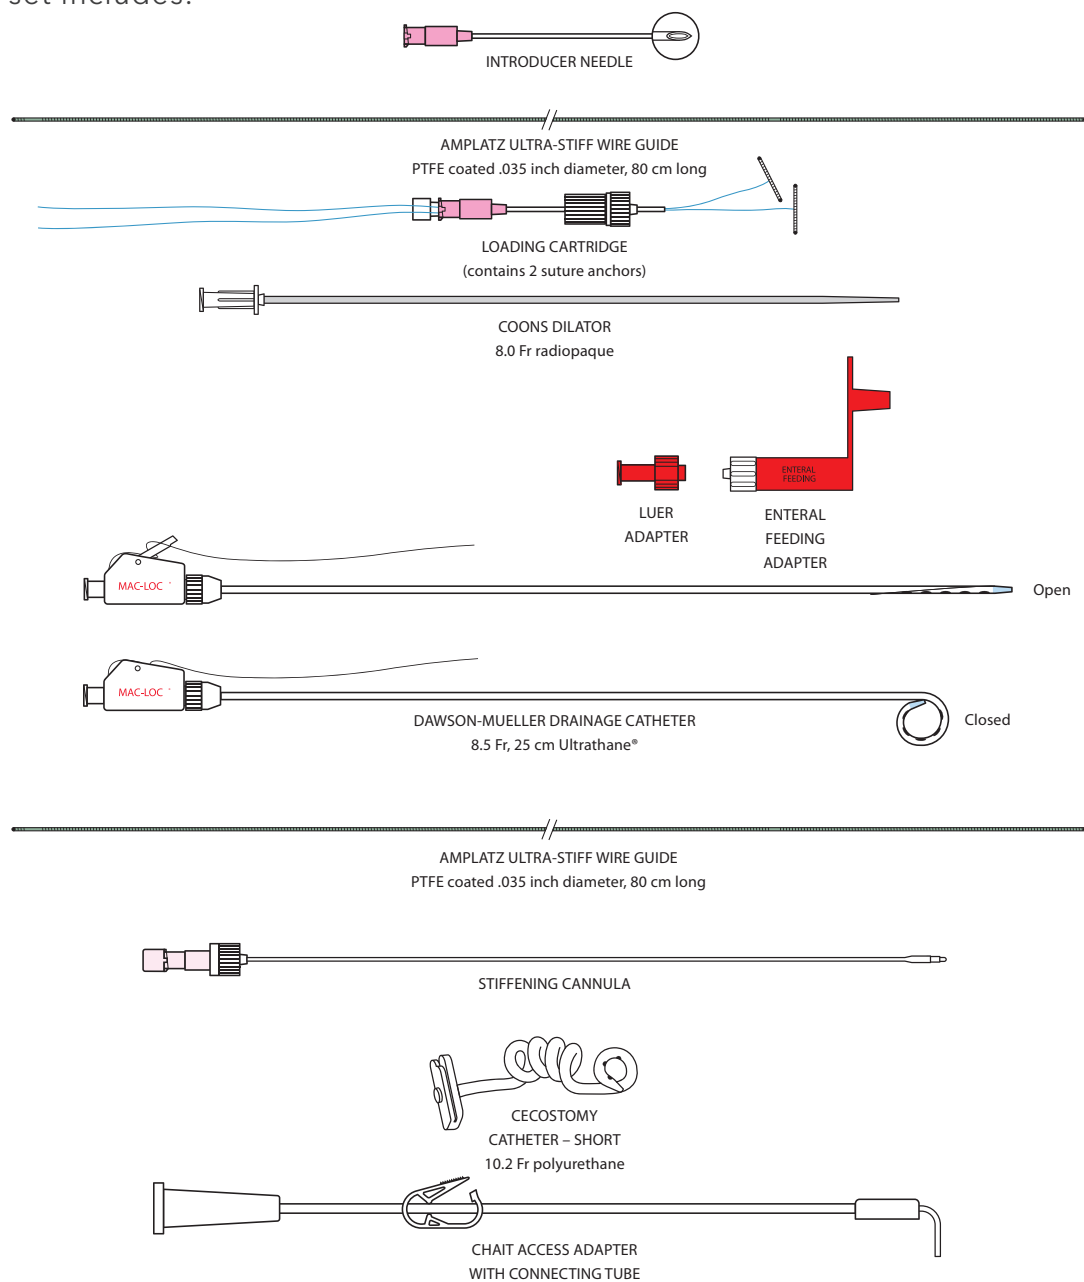

Chait Percutaneous Cecostomy Catheter Set

Provides essential products to perform initial cecostomy procedure and eventual Chait placement.

- AQ® hydrophilic coating on Dawson-Mueller, when activated, reduces the coefficient of friction during insertion
- The Dawson-Mueller's Intro-Tip™ design helps prevent the catheter from accoring when resistance is encountered
- Easy-to-use, low-profile Mac-Loc® provides firm fixation of the pigtail while maintaining patient comfort
- Includes Chait enterostomy suture anchors

Each set includes:

Order Number	Reference Part Number	Catheter Fr	Catheter Sideports	Tract Length cm
G12571	TDCS-100-CS	8.5	5	0-14

Supplied sterile in peel-open packages. Intended for one-time use.

Not all part numbers shown on this product information sheet may be approved for sale in all regulatory jurisdictions. Consult with your local Cook representative or customer service center for details.

Accessories for Cecostomy Procedures

Chait Access Adapter
with Connecting Tube

Order Number	Reference Part Number
G11630	CTU10.0-18-CAA

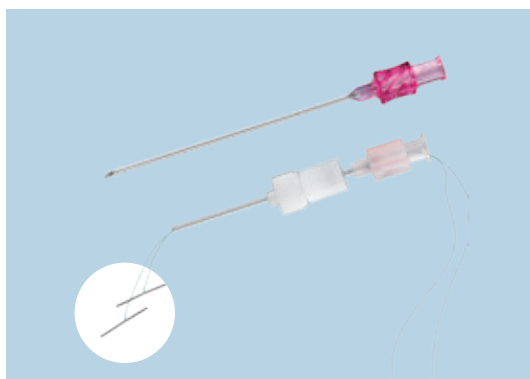

Supplied sterile in peel-open packages. Intended for one-time use.
Not all part numbers shown on this product information sheet may be approved for sale in all regulatory jurisdictions.
Consult with your local Cook representative or customer service center for details.

Deutsch

GASTROSTOMY CATHETER SET

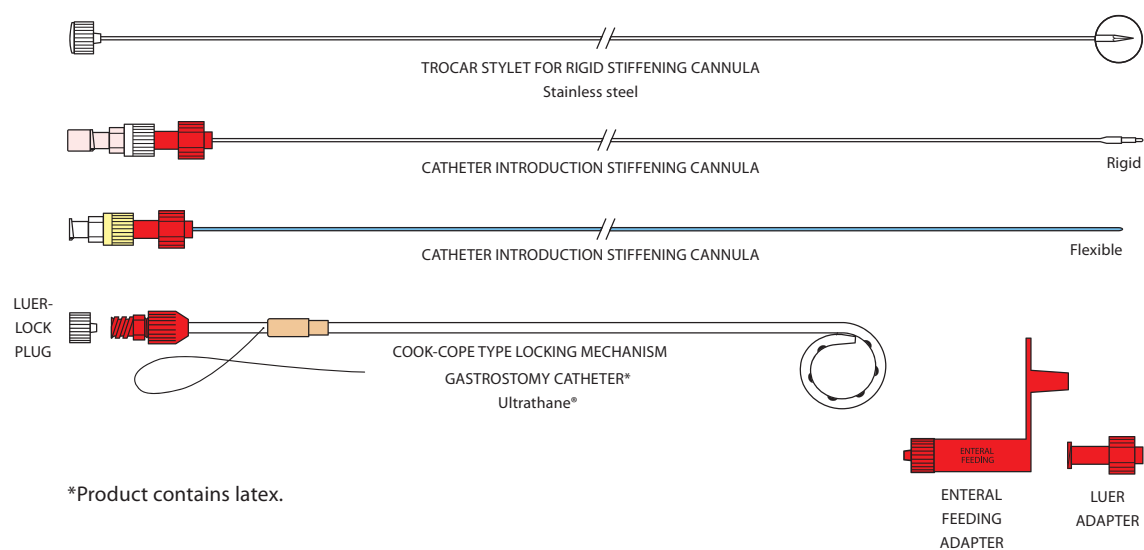

Deutsch Gastrostomy Catheter Set

Used for percutaneous catheter placement for gastroenteric feeding.

- AQ® hydrophilic coating eases catheter introduction by reducing the coefficient of friction
- Locking pigtail prevents inadvertent removal from the stomach
- Six large, oval sideports in pigtail portion of catheter facilitate gastric feeding
- Inclusion of both flexible and rigid stiffening cannulas accommodates physician preference
- Catheter can be placed using Seldinger technique or one-stick trocar method, expanding your procedural options

Each set includes:

*Product contains latex.

Order Number	Reference Part Number	Catheter Fr	Catheter Length cm	Catheter Sideports
G01425	ULT16.0-38-25-P-6S-MCL-UCI-HC	16.0	25	6

Supplied sterile in peel-open packages. Intended for one-time use.
 Not all part numbers shown on this product information sheet may be approved for sale in all regulatory jurisdictions.
 Consult with your local Cook representative or customer service center for details.

Wills-Oglesby

PERCUTANEOUS GASTROSTOMY SET

MALLINCKRODT INSTITUTE MODIFICATION

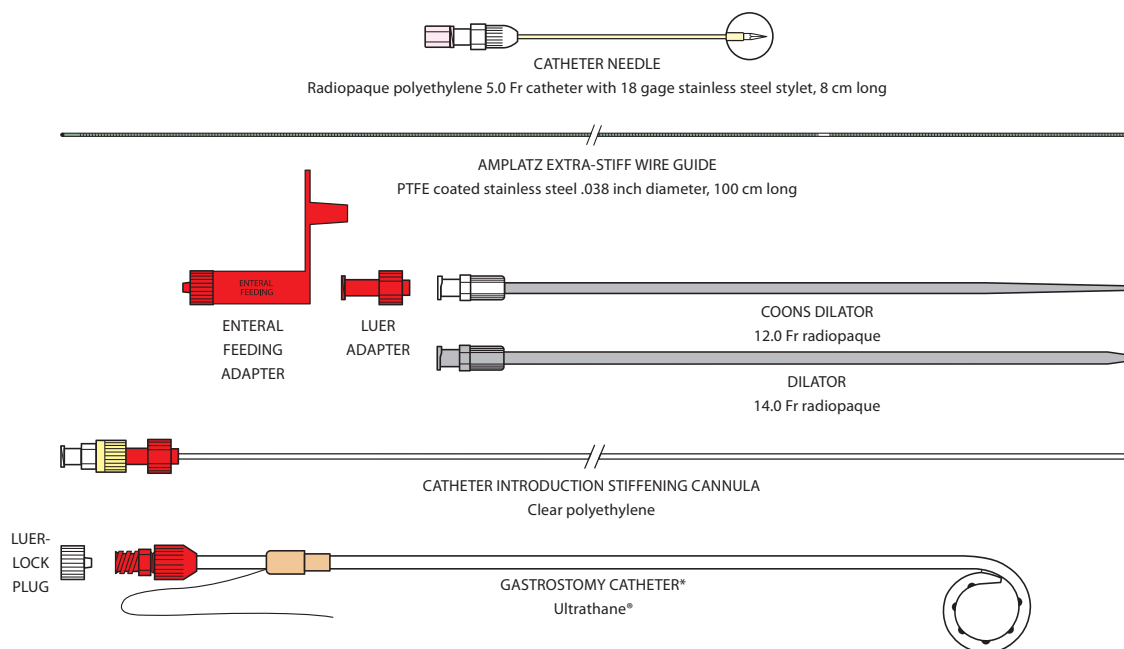

Wills-Oglesby Percutaneous Gastrostomy Set - Mallinckrodt Institute Modification

Used for percutaneous catheter placement for gastroenteric feeding.

- Locking pigtail prevents inadvertent removal from the stomach
- Six large sideports in the pigtail portion of the catheter facilitate gastric feeding

Each set includes:

*Product contains latex.

Order Number	Reference Part Number	Catheter Fr	Catheter Length cm	Catheter Sideports
G08417	WOGS-1400-MKDT-A	14.0	30	6
Replacement Catheter				
G08647	ULT14.0-38-30-P-6S-WOGS-MKDT-A	14.0	30	6

Supplied sterile in peel-open packages. Intended for one-time use.
Not all part numbers shown on this product information sheet may be approved for sale in all regulatory jurisdictions.
Consult with your local Cook representative or customer service center for details.

Wills-Oglesby

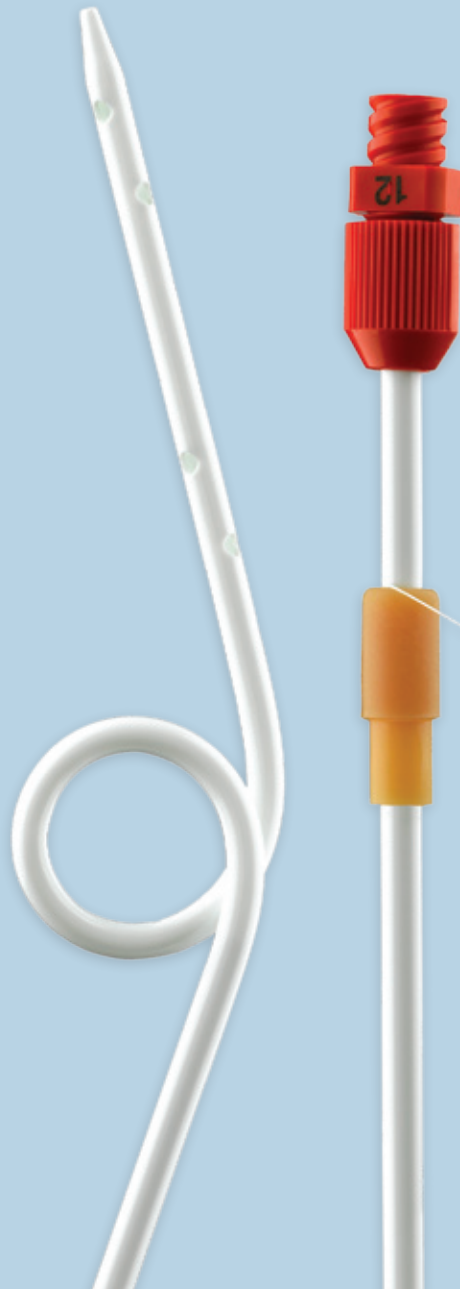

PERCUTANEOUS GASTROSTOMY SET

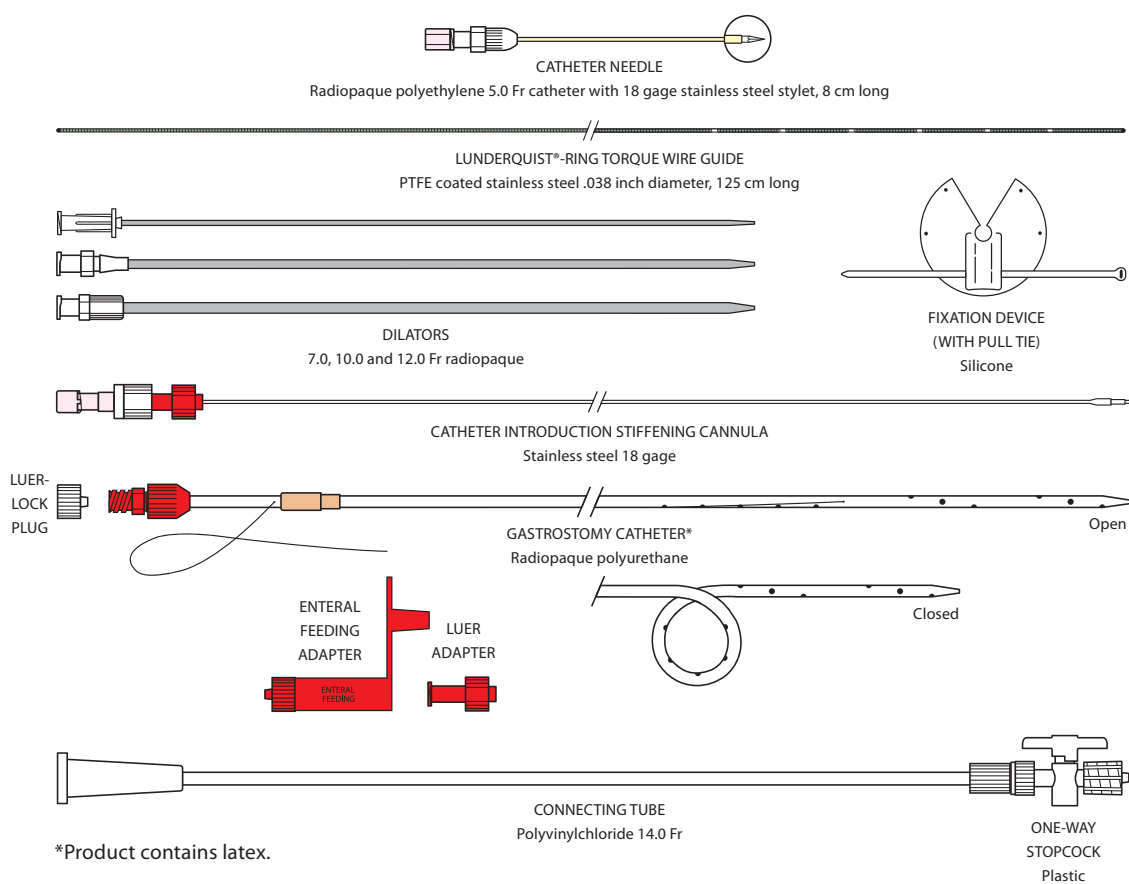

Wills-Oglesby Percutaneous Gastrostomy Set

Used for percutaneous catheter placement for gastroenteric feeding.

- Locking loop prevents inadvertent removal from the stomach
- Locking loop and distal end contain 12 sideports to facilitate gastric feeding

Each set includes:

Global Product Number	Order Number	Catheter Fr	Catheter Length cm	Catheter Sideports
G05274	WOGS-1200	12.0	35	12
Replacement Catheter				
G09892	ULT12.0-38-35-P-12S-WOGS	12.0	35	12

Supplied sterile in peel-open packages. Intended for one-time use.
 Not all part numbers shown on this product information sheet may be approved for sale in all regulatory jurisdictions.
 Consult with your local Cook representative or customer service center for details.

Carey-Alzate-Coons

GASTROJEJUNOSTOMY SET

DOUBLE LUMEN

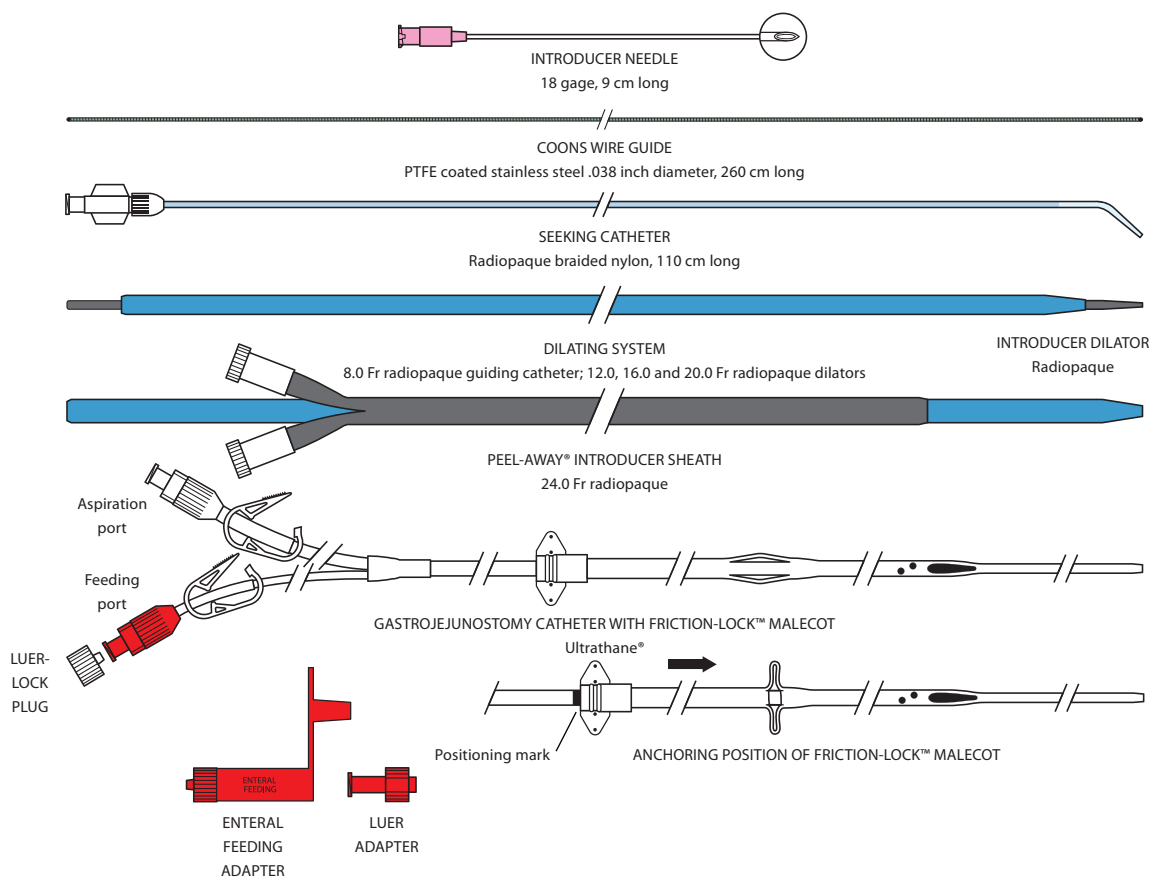

Carey-Alzate-Coons Gastrojejunostomy Set - Double Lumen

Used for percutaneous placement of a double-lumen catheter to simultaneously feed the jejunum and aspirate gastric contents.

- The Friction-Lock™ Malecot portion of the feeding catheter prevents inadvertent removal from the stomach
- Cope Suture Anchor Set included facilitates secure fixation of the stomach
- Two sideports in gastric portion of catheter facilitate aspiration

Each set includes:

Suture anchors are included with set and can be found on pages 4 and 5.

Order Number	Reference Part Number	Gastric Segment Fr	Jejunal Segment Fr	Catheter Malecot to Gastric End* Length cm	Catheter Malecot to Jejunal End Length cm	Gastric Catheter Sideports
G05839	GJS-1650D	24	16.5	7	80	2
Replacement Catheter						
G27047	ULT16.5D-NT-80-P-2S-GJS	24	16.5	7	80	2

Supplied sterile in peel-open packages. Intended for one-time use.

*Measured from proximal point of Malecot.

Not all part numbers shown on this product information sheet may be approved for sale in all regulatory jurisdictions.

Consult with your local Cook representative or customer service center for details.

Carey-Alzate-Coons

GASTROJEJUNOSTOMY SET

SINGLE LUMEN

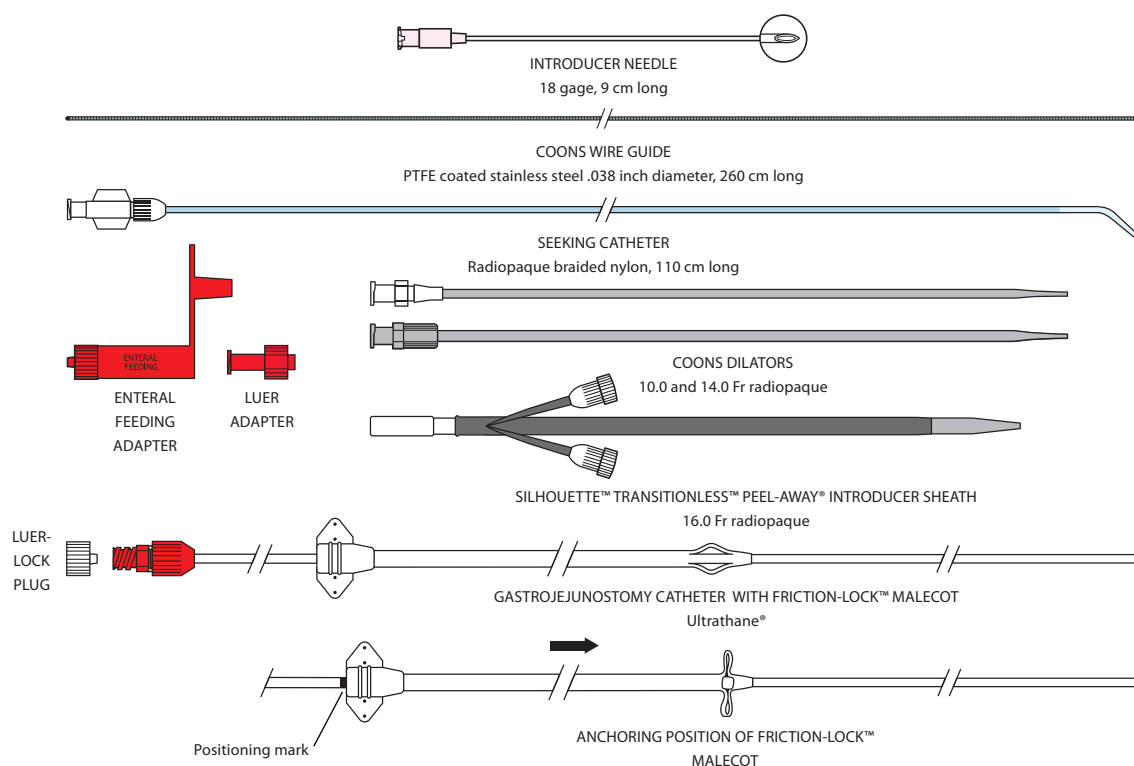

Carey-Alzate-Coons Gastrojejunostomy Set - Single Lumen

Used for percutaneous catheter placement for feeding into the jejunum.

- The Friction-Lock™ Malecot portion of the feeding catheter prevents inadvertent removal from the stomach
- Cope Suture Anchor Set included facilitates secure fixation of the stomach

Each set includes:

Suture anchors are included with set and can be found on pages 4 and 5.

Order Number	Reference Part Number	Gastric Segment Fr	Jejunal Segment Fr	Catheter Malecot to Distal End* Length cm	Full Catheter Length cm	Catheter Sideports

Replacement Catheter						
G27044	ULT10.2-NT-100-P-NS-GJS	16	10.2	80	100	0

Supplied sterile in peel-open packages. Intended for one-time use.

*Measured from proximal point of Malecot.

Not all part numbers shown on this product information sheet may be approved for sale in all regulatory jurisdictions.

Consult with your local Cook representative or customer service center for details.

Marx-Cope

GASTROJEJUNOSTOMY SET

COAXIAL SYSTEM

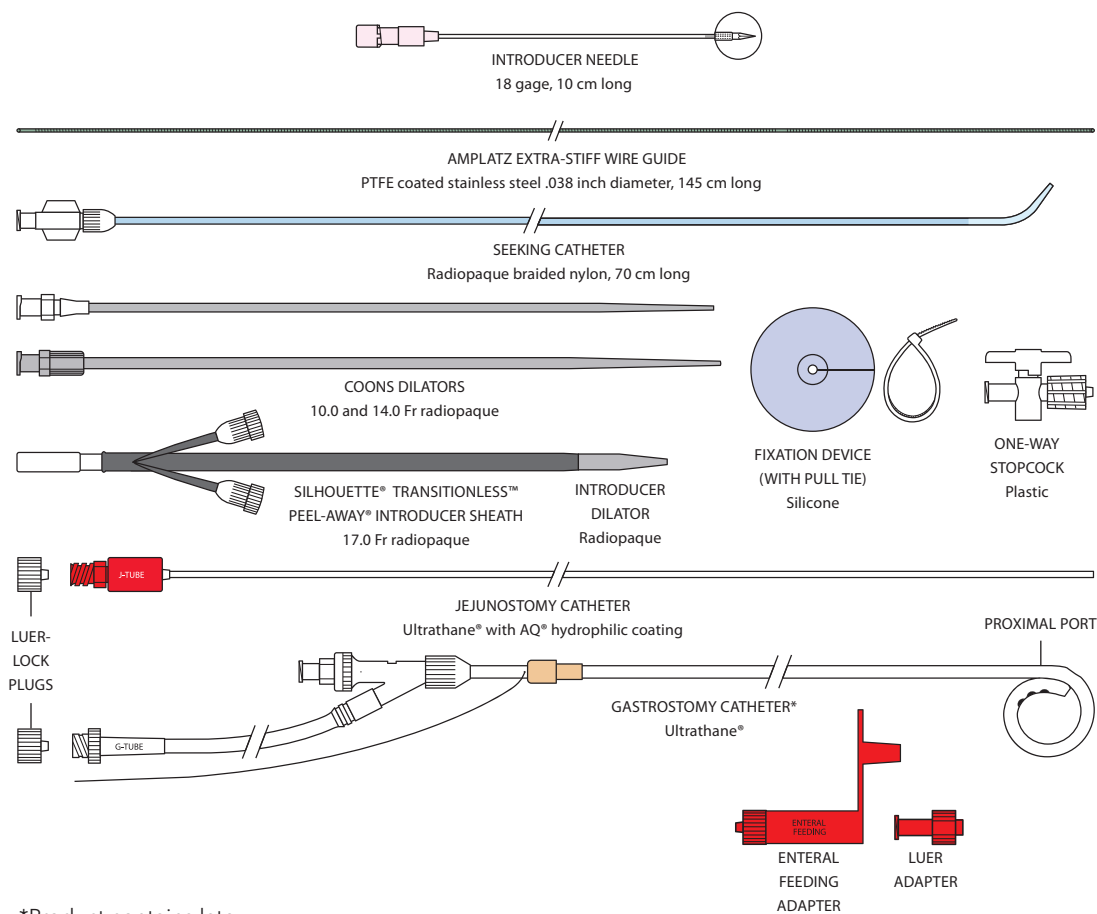

Marx-Cope Gastrojejunostomy Set - Coaxial System

Used for percutaneous placement of a coaxial catheter system.

- Coaxial system allows simultaneous feeding of the jejunum and aspiration of gastric contents
- Accommodating design allows replacement of the jejunal catheter without having to remove the gastric catheter
- AQ® hydrophilic-coated jejunal catheter eases introduction by reducing the coefficient of friction
- Luer lock on hub of jejunal catheter prevents inadvertent dislodgement
- Cope Suture Anchor Set included facilitates secure fixation of the stomach
- Four gastric sideports facilitate aspiration

Each set includes:

*Product contains latex.

Suture anchors are included with set and can be found on pages 4 and 5.

Order Number	Reference Part Number	Gastric Catheter Fr	Gastric Catheter Length cm	Gastric Catheter Sideports	Jejunal Catheter Fr	Jejunal Catheter Length cm
G10448	GJS-1600-MCGJ	16.0	25	4	8.5	70
Replacement Jejunal Catheter						
G10446	ULT8.5-NT-70-LL-NS-0-MCJ-HC	-	-	-	8.5	70

Supplied sterile in peel-open packages. Intended for one-time use.

Not all part numbers shown on this product information sheet may be approved for sale in all regulatory jurisdictions.

Consult with your local Cook representative or customer service center for details.

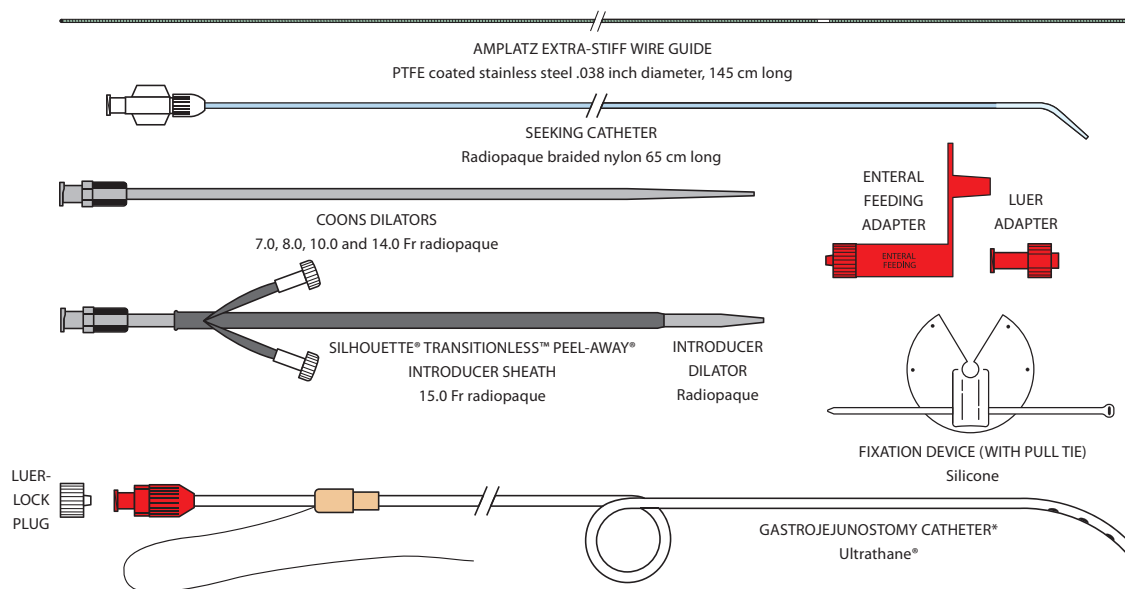

Shetty Gastrojejunostomy Set

Used for percutaneous catheter placement for feeding into the jejunum.

- Locking loop prevents inadvertent removal from the stomach
- Nontapered end hole and three large, oval sideports facilitate jejunal feeding
- Cope Suture Anchor Set included facilitates secure fixation of the stomach

Each set includes:

*Product contains latex.

Suture anchors are included with set and can be found on pages 4 and 5.

Order Number	Reference Part Number	Catheter Fr	Catheter Locking Loop To Distal End Length cm**	Full Catheter Length cm***	Jejunal Catheter Sideports

G07407	ULT14.0-NT-63-P-3S-GJS-SHETTY	14.0	36.5	63	3

Supplied sterile in peel-open packages. Intended for one-time use.

**Measured from proximal point of closed locking loop.

***Measured with locking loop closed.

Not all part numbers shown on this product information sheet may be approved for sale in all regulatory jurisdictions.

Consult with your local Cook representative or customer service center for details.

Wills-Oglesby

PERCUTANEOUS GASTROJEJUNOSTOMY SET

RANKIN MODIFICATION

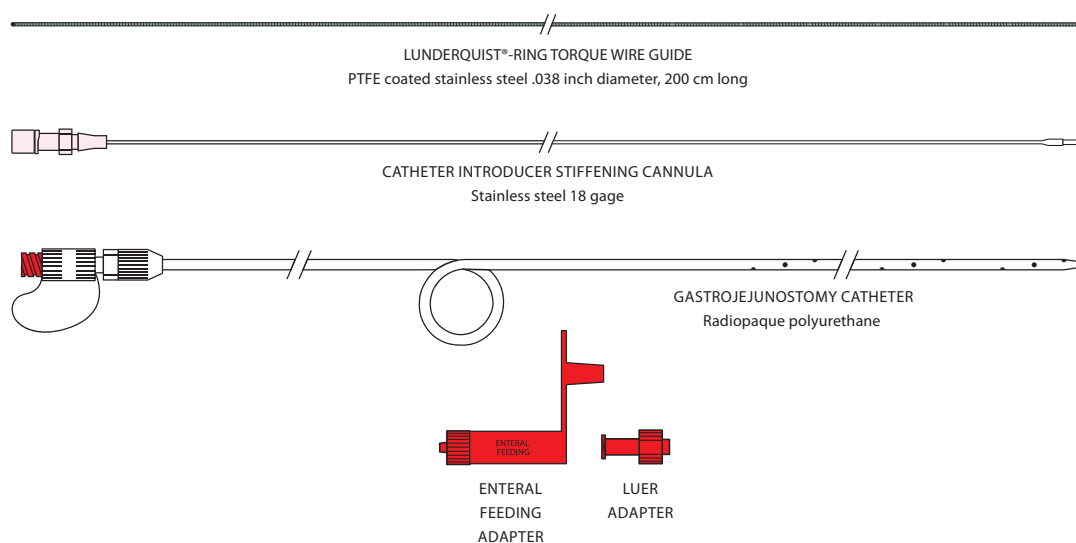

Wills-Oglesby Percutaneous Gastrojejunostomy Set - Rankin Modification

Used for percutaneous catheter placement for gastroenteric feeding.

- Locking loop prevents inadvertent removal from the stomach
- Twenty sideports in the distal portion of the catheter enhance delivery of feeding solution

Each set includes:

Order Number	Reference Part Number	Catheter Fr	Catheter Locking Loop To Distal End Length cm*	Full Catheter Length cm**	Jejunal Catheter Sideports
G08407	WOGS-1200-RKN	12.0	53.25	72	20
Replacement Catheter

Supplied sterile in peel-open packages. Intended for one-time use.

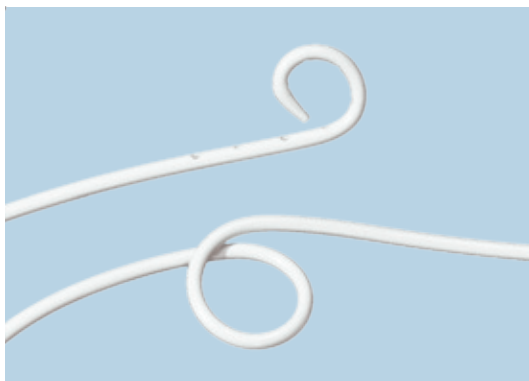

*Measured from proximal point of closed locking loop.

**Measured with locking loop closed.

Not all part numbers shown on this product information sheet may be approved for sale in all regulatory jurisdictions.

Consult with your local Cook representative or customer service center for details.

Frederick-Miller

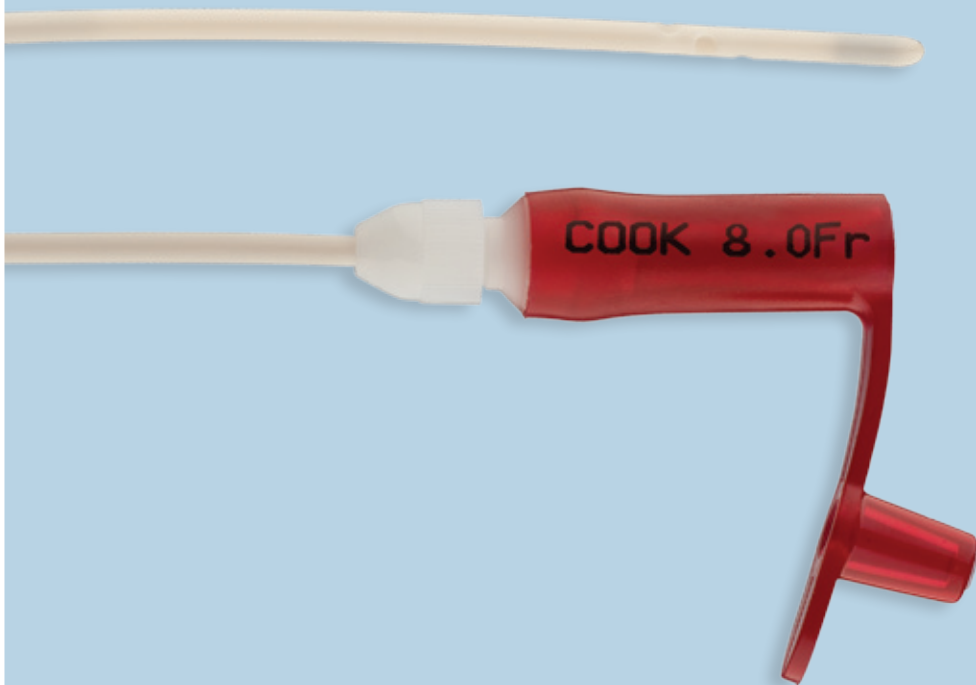

FEEDING TUBE SET

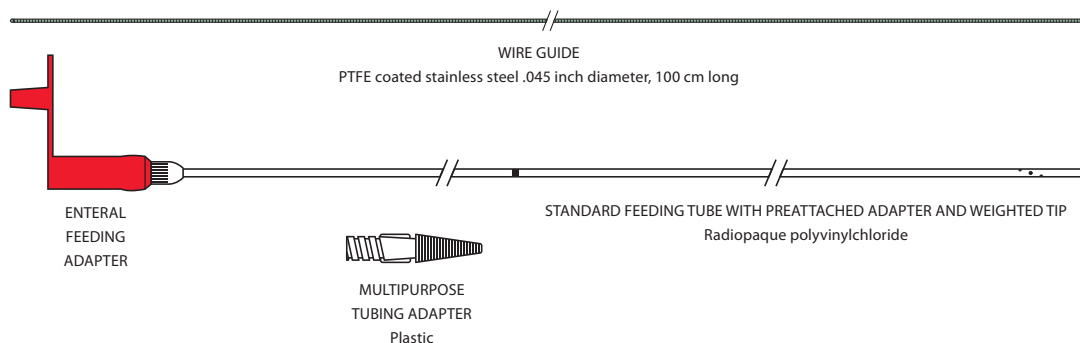

Frederick-Miller Feeding Tube Set

Used for enteral feeding.

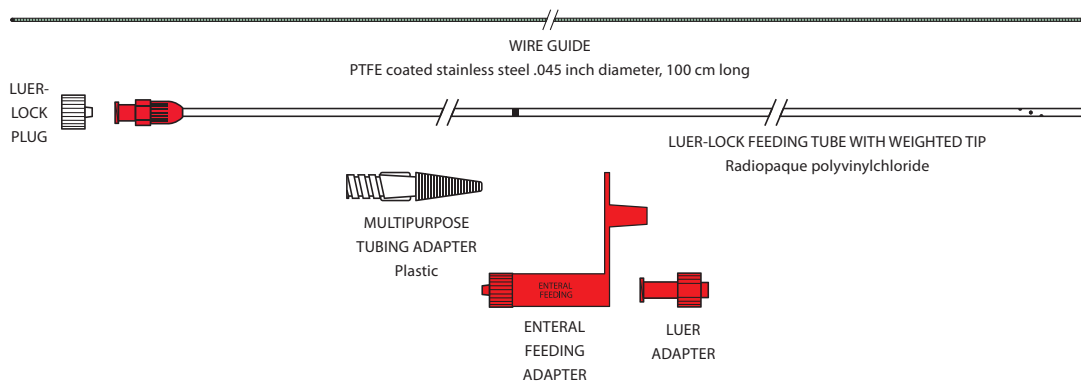

- Weighted distal end facilitates passage
- Wire guide allows placement of tube under fluoroscopic control
- Three sideports in distal portion of the catheter facilitate feeding
- Available with or without pre-attached enteral feeding adapter to accommodate physician preference

Each standard set includes:

Each Luer-lock set includes:

Order Number	Reference Part Number	Feeding Tube Fr	Feeding Tube Length cm	Feeding Tube Sideports	Feeding Tube Tip Configuration
Standard					
G07361	C-FMT-8.0-70	8.0	70	3	closed end
G05276	C-FMT-8.0-120	8.0	120	3	closed end
Luer Lock					
G10790	C-FMT-8.0-120-LL	8.0	120	3	closed end

Supplied sterile in peel-open packages. Intended for one-time use.
 Not all part numbers shown on this product information sheet may be approved for sale in all regulatory jurisdictions.
 Consult with your local Cook representative or customer service center for details.

McLean-Ring

ENTERAL FEEDING TUBE SET

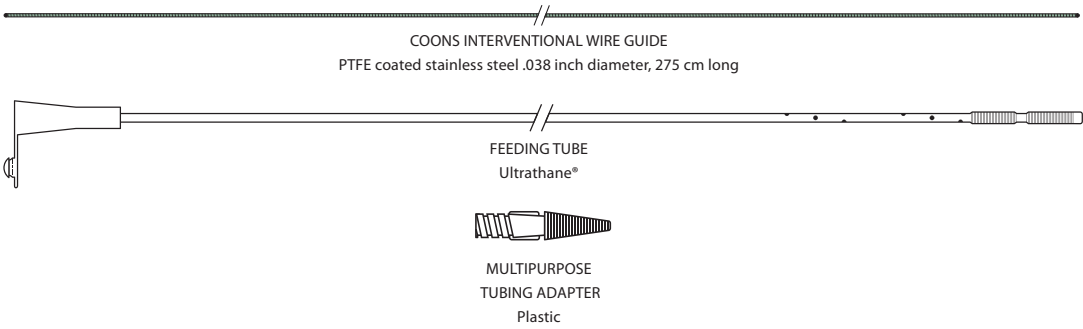

McLean-Ring Enteral Feeding Tube Set

Used for enteral feeding.

- Weighted distal end facilitates passage
- Allows placement over a wire guide through end hole if obstruction or ineffective peristalsis exists
- Open distal end

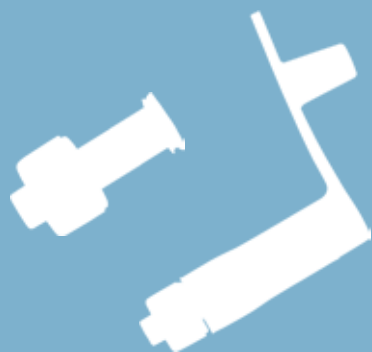

Each set includes:

Order Number	Reference Part Number	Feeding Tube Fr	Feeding Tube Length cm	Feeding Tube Sideports
G02647	MRT-9.5-130	9.5	130	6

Supplied sterile in peel-open packages. Intended for one-time use.
Not all part numbers shown on this product information sheet may be approved for sale in all regulatory jurisdictions.
Consult with your local Cook representative or customer service center for details.

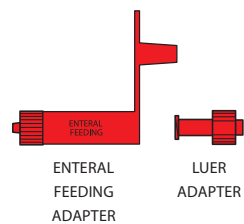

Shown actual size

Enteral Feeding Adapters

- Accommodates caregivers by allowing adapters to be changed at any time
- Clear labeling and red color indicate that adapter facilitates feeding
- Conveniently fits large-bore Luer gastrostomy, gastrojejunostomy and nasoenteric tubes

Each set includes:

Order Number	Reference Part Number
Enteral Feeding Adapter	
G50006	FTA-LMLLA-R
Luer Adapter	
G50007	FTA-CONV

Supplied sterile in peel-open packages. Intended for one-time use.
Not all part numbers shown on this product information sheet may be approved for sale in all regulatory jurisdictions.
Consult with your local Cook representative or customer service center for details.

Bilbao-Dotter

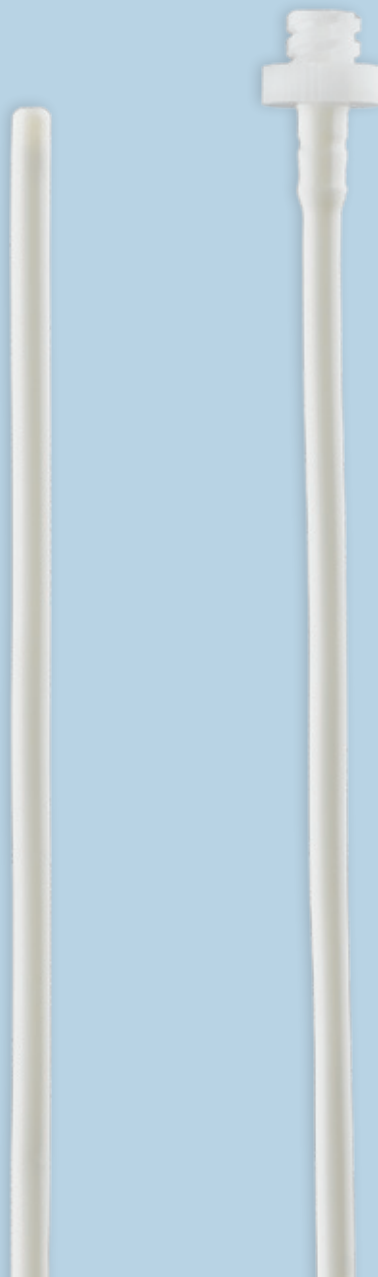

HYPOTONIC DUODENOGRAPHY SET

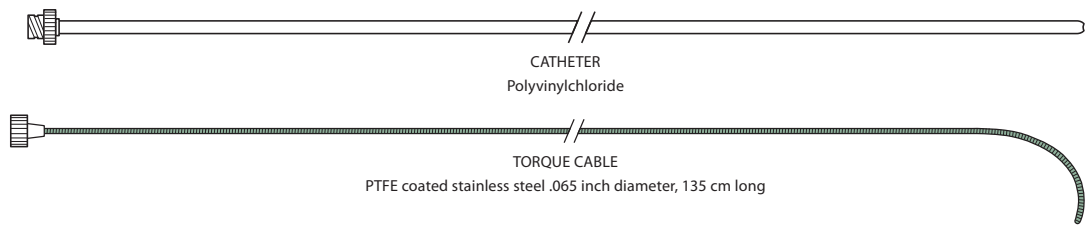

Bilbao-Dotter Hypotonic Duodenography Set

Used to perform radiographic studies that show duodenal anatomy.

- PTFE coated torque cable reduces friction and enhances directional control into the duodenum
- Placement in duodenum eliminates interference from peristaltic activity

Each set includes:

Order Number	Reference Part Number	Catheter Fr	Catheter Length cm	Catheter Sideports	Catheter Tip Configuration
G03428	SBD-200-HERL-MOD	12.0	135	0	open end

Supplied sterile in peel-open packages. Intended for one-time use.
Not all part numbers shown on this product information sheet may be approved for sale in all regulatory jurisdictions.
Consult with your local Cook representative or customer service center for details.

Maglinte Multipurpose

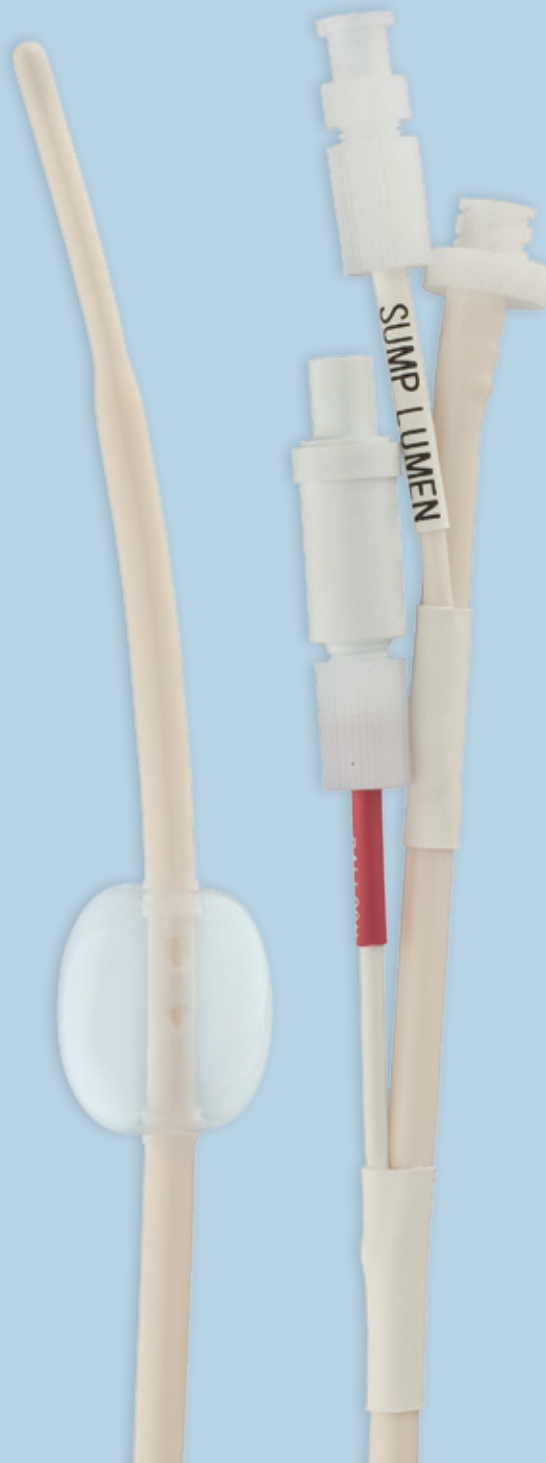

DECOMPRESSION/ENTEROCLYSIS BALLOON CATHETER SET

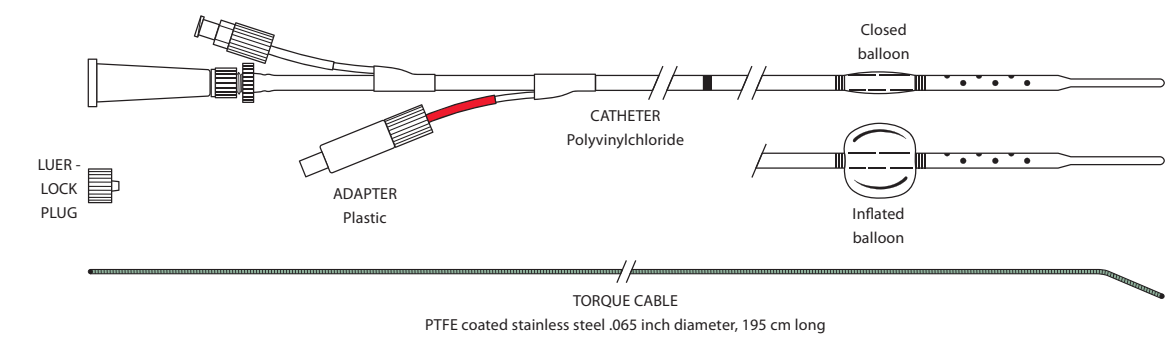

Maglinte Multipurpose Decompression/Enteroclysis Balloon Catheter

Used for small-bowel decompression and enteroclysis.

- Second lumen allows air to pass to the distal tip of catheter, reducing negative pressure during small-bowel decompression
- PTFE coated torque cable reduces friction and enhances directional control into the duodenum
- Introduction and placement are similar to standard nasoenteric tube

Each set includes:

Order Number	Reference Part Number	Catheter Fr	Catheter Length cm	Torque Cable Tip Configuration
G05481	MDEC-1400	14.0	155	angled

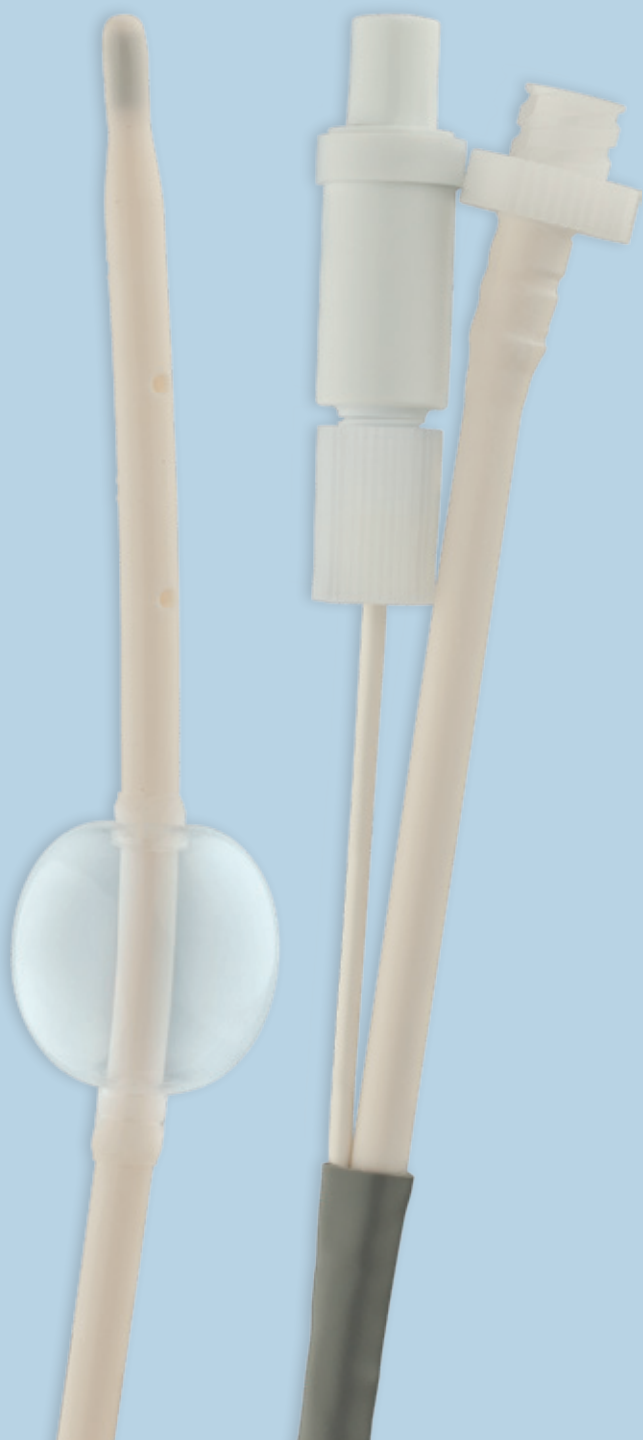

Supplied sterile in peel-open packages. Intended for one-time use.
Not all part numbers shown on this product information sheet may be approved for sale in all regulatory jurisdictions.
Consult with your local Cook representative or customer service center for details.

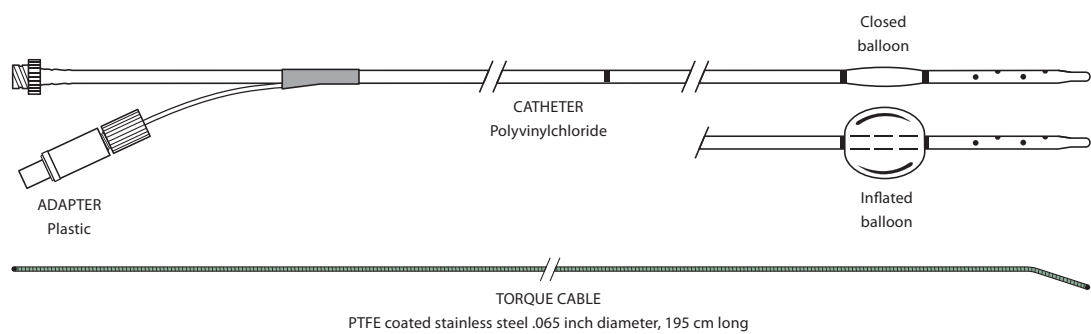

MaglinTE Enteroclysis Catheter Set

Used for small-bowel decompression and enteroclysis.

- Balloon prevents reflux of contrast medium
- PTFE coated torque cable reduces friction and enhances directional control into the duodenum

Each set includes:

Order Number	Reference Part Number	Catheter Fr	Catheter Length cm	Torque Cable Tip Configuration
G03417	MEC-100	13.0	155	angled

Supplied sterile in peel-open packages. Intended for one-time use.
Not all part numbers shown on this product information sheet may be approved for sale in all regulatory jurisdictions.
Consult with your local Cook representative or customer service center for details.

NOTES

This image shows a single page of white paper with horizontal blue or grey ruling lines. The lines are evenly spaced and run across the width of the page, typical of notebook paper. There is no handwriting or other markings on the page.
