

Peripherally inserted central venous catheters (PICCs)

NEW PRODUCT INFORMATION

Cook's 4 Fr PICCs are now available with a minimal taper.

Displayed below for your reference is a convenient chart that includes new part numbers for PICCs with a minimal taper.

The Cook difference

Cook Medical offers a complete line of PICC options, including silicone and power-injectable polyurethane catheters and catheters that are uniquely impregnated with the antibiotics minocycline and rifampin to help prevent CRBSIs.

Ensure that you have the right PICC for any treatment and every patient.

Trust Cook's consistent quality in a variety of applications.

- Our expanded Turbo-Ject and Spectrum Turbo-Ject product lines and our existing Turbo-Flo® and silicone PICC lines ensure that clinicians will have the right PICC for any treatment and every patient.
- A full line of PICC options allows clinicians to expect consistent quality across a variety of applications.
- Our 4 Fr PICCs are now available with a minimal taper, and with the 3, 5, and 6 Fr catheter sets, they complete the minimal taper product line.

Streamline your PICC supply chain.

A full line of PICC options allows suppliers and clinicians to rely on one source for all of their PICC placement needs.
