

Manage the most challenging  
salivary stones with durable  
nitinol stone extractors.

# Salivary Stone Extractors

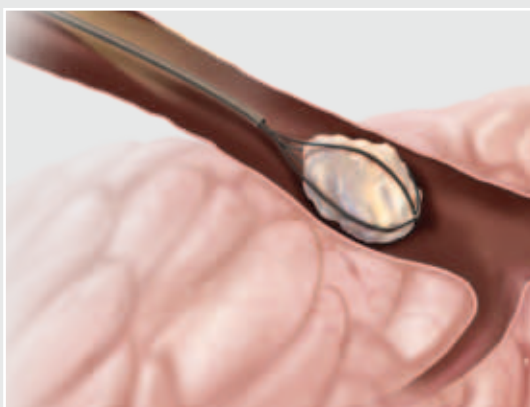

Extracting salivary stones can be challenging. Cook Medical, a world leader in nitinol basket technologies, is delivering two salivary stone extractors that help make sialendoscopy more efficient and effective.

## Nitinol Design

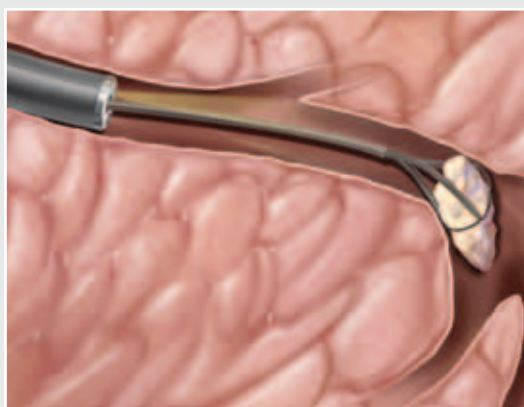

The shape memory and resilient qualities of our stone extractors' patented nitinol design allow expedient stone retrieval and minimize trauma to the ductal wall.

Features include:

- **Kink resistance**, which allows the baskets to withstand multiple deployments.
- **Flexibility**, which allows the expedient capture and release of stones.

**NCircle®**  
Tipless Salivary Stone Extractor

**NGage®**  
Salivary Stone Extractor

# NCircle®

## TIPLESS SALIVARY STONE EXTRACTOR

Easily remove stones while reducing trauma to the ductal wall with the patented, tipless NCircle extractor.

### Feature and Benefits

#### Tipless design

The tipless configuration allows you to position the basket directly against the mucosal lining, which helps minimize trauma, reduce the risk of ductal wall perforation and maintain a clear working field.

#### Increased flexibility

The flexible sheath allows continuous, full deflection of the endoscope during stone manipulation.

# NGage®

## SALIVARY STONE EXTRACTOR

The NGage nitinol stone extractor is not just a grasper or stone basket; it's a combination of the two.

### Feature and Benefits

#### Dual performance

NGage can hold stones like a basket and release them like a grasper, providing optimized control throughout the procedure.

#### Patented design

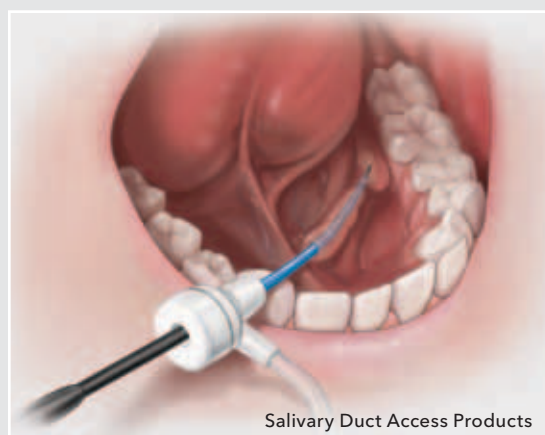

Its unique design allows you to engage, reposition, release and extract stones in various locations throughout the salivary duct.

## ORDERING INFORMATION

Order Number	Reference Part Number	Catheter Fr	Catheter Length cm	Basket Diameter mm
<b>NCircle Tipless Salivary Stone Extractor</b>				
G23797	SSEB-1.5-115-10	1.5	115	10
<b>NGage Salivary Stone Extractor</b>				
G23798	SSEB-1.7-115-8	1.7	115	8

Not all part numbers shown on this product information sheet may be approved for sale in all regulatory jurisdictions. Consult with your local Cook representative or customer service center for details.

### Other products of interest

Along with our salivary stone extractors, Cook Medical offers salivary duct access tools, including wire guides, dilators and introducer sheaths that help you gain and maintain ductal access and make salivary stone extraction more efficient and effective. We are dedicated to the advancement of sialendoscopy and the prevention of unnecessary salivary gland removal.
