

Universa[®]

URETERAL STENT SET

Experience the everyday stent
with a monofilament tether.

Experience Universa[®].

Universa stents are used to provide temporary internal drainage from the ureteropelvic junction to the bladder. The Universa Firm and Universa Soft ureteral stents combine premium features and the everyday advantage of a full product line. Consolidated part numbers enable streamlined ordering and provide cost savings.

Soft and firm options provide flexibility when choosing the appropriate stent for your patient. Universa Soft offers a softer feel during placement and provides patient comfort once inside the body. Universa Firm's thermosensitive material is firm for placement but softens in the body for enhanced patient comfort.

FEATURES

Graduation Marks
Visualize stent advancement and placement

Monofilament Tether*
Easy repositioning and removal

**A braided tether option is also available*

Pigtail Straightener
Simplified advancement over the wire guide

Radiopaque Tip on Pusher
Precise fluoroscopic positioning

French Size & Length
Expedient stent exchanges

Box Packaging
Convenient storage and identification

OPTIONS

Stent and Positioner

No wire guide

Set

Stent, positioner and wire guide

Hydrophilic

Universa Firm Hydrophilic, Universa Soft Hydrophilic

Nonhydrophilic

Universa Soft only
